

HOYT PLEADS FOR HARMONY AT MILWAUKEE CONFERENCE OF STATE REPUBLICANS

G. O. P. Meets to Decide on Candidate to Defeat Thompson

CALLS SITUATION SERIOUS

Gen. H. C. McGovern Will be
Chosen on Loyalty
Entry

By the Associated Press.]
MILWAUKEE, March 4. "The situation is a serious one and can only be met by uniting all patriotic republicans in support of a single candidate who can command the support of the party," said Frank M. Hoyt, temporary chairman of the republican conference, called for the purpose of reaching an agreement whereby either former Governor Francis E. McGovern or Congressman Irvine L. Lenroot might possibly be agreed upon to oppose James Thompson of La Crosse, known as the La Follette candidate, in the race for the republican nomination for United States senator at the primaries on March 19.

Chairman Hoyt said that the man was blind indeed who could not now see that an attack upon the United States was part of the plan of world conquest which the German government was waging and for which it spent years in preparation. He pointed to Germany's program of propaganda and said that upon the rights of this propaganda Germany relied to prevent the United States from entering the war in spite of all the wrongs inflicted and that "she now relies upon to hamper and impede our government in its efforts to prosecute the war."

Mr. Hoyt said that in no state has the German propaganda been more energetically pushed than in Wisconsin and nowhere have its efforts been attended with more success. He said that Wisconsin had suffered the disgrace of having its representative in the United States senate state that when war was declared on Germany that "we were proceeding on purely technical ground," and had been further shamed by the acts of this senator in obstructing legislation necessarily demanded by the national government to enable it to successfully and speedily complete its preparations for the war.

In conclusion, Mr. Hoyt said: "You are members of a party which under the leadership of the immortal Lincoln saved this nation from dissolution. You will today show yourself worthy of that great heritage by aiding in sending to Washington a senator who will help and not hinder the government in its efforts to win the war, in proving that our people are now as loyal, as patriotic and as devoted to the nation as they were in 1861."

GETS WHISKEY FOR SOLDIERS

Canada Buys 25,000 Barrels of Old 'Kain- tuck'

TORONTO, Ont., March 4.—Twenty-five thousand barrels of Kentucky whiskey, two years old "or better," has been ordered by the British government for the use of men at the front. The contract was awarded at Montreal by the British consular agent there and was given to the Distillers' Securities corporation. The price to be paid is about \$50 a barrel.

Liquor interests here estimate that the cost of manufacturing this whiskey was between 30 and 35 cents per gallon, so that the net profit to the distillers' corporation will be in the neighborhood of \$1 a gallon on the order, or a total profit of \$1,000,000.

For some time past even friends of prohibition have unhesitatingly admitted the need of serving liquor to the men in the trenches, and returned soldiers have pointed out the urgent necessity for alcoholic stimulant to men who have been through the horrors of battle and exposure to them and who are suffering from trench fever.

During the first year or so of hostilities the rations were served out at regular intervals, but the tremendous drain upon the stocks of this kind of liquor has decided the government to purchase whiskey, and the Kentucky distillers have decided upon the most profitable market.

MAJOR GEN. MARCH IN NEW POSITION

By the Associated Press.]
WASHINGTON, Mar. 4.—Major General Peyton C. March today formally took over his new duties as acting chief of the general staff, relieving Major General Hiddle, assistant chief, who has been directing staff affairs since General Bliss, the chief of staff, was assigned to the supreme war command in Europe.

M'CARTHY SAYS HE WOULD GIVE DEMOCRATS AID

Believes His Entrance in Sena- torial Race Will Insure Victory

Dr. Charles McCarthy issued a statement today in which he announced that his reason for offering himself as a candidate for United States senator in the democratic primaries is to bring strength to the party in this state and thus insure victory for the president's party.

"This is the first great referendum on the administration of this war," said Dr. McCarthy.

"This is the first battle before the people of this nation between those who are sapping the morale of the nation."

"I simply want to give my whole heart to smashing the Thompson-Berger fifty-fifty anti-administration outfit. I feel this a sacred duty."

"Why then do I oppose Davies in the primary? I do so only after the most thorough study of the situation. Joe is my friend. He is a loyal, clean man. I will support him without question if he wins."

"But, there is but one issue in this campaign."

"To stand by President Wilson to the finish."

"To get a complete endorsement of the president, the party of the president should win."

"It should not only win but it should so completely snow under Thompson and Berger that this nation will ring with the victory. It should so thoroughly and everlastingly lam-baste this fifty-fifty loyal business that the impact shall at last shake congress into action and forever rout that 'body of willful men' who have been so fatally delaying this war."

"It must ring through the world and"

WHO'S WHO IN WISCON- SIN POLITICS?

(From Milwaukee Journal Mar. 1.)
McCarthy, Charles—"I am a democrat." Must be. Not a republican, just now. Not a moozer. Not a boobie. Not a socialist. Not a prohibitionist. A. W. A. Peace. Philanthropist. Chased his goat. Did he get it? Not from the doctor. Quite the reverse. He is the man who put the "it" in the Wisconsin idea. Really it's all his. Ask him. Now settled beyond state line, because Wilson needs him in the senate.

First thing Wilson asks after breakfast, "How's Charlie running out in Wisconsin?" Versatile too. Just been teaching farmers down south how to wean calves. Hates to see him name in print.

Bring to people of the stricken countries of Europe a new hope and fortune. Daily I have viewed for many months in Mr. Hoover's office the cables from the governments of those war-weary peoples and well I know the need of that endorsement and the value of it to them.

"It must be such a victory as Paul Hastings would wish. For years and years I have fought for sane constructive legislation and a square deal for the toilers, the farmers and producers of this state and nation. With voice and tongue and pen, I have championed their cause as wisely as I know how."

"Frankly, I know that these men believe in me and will stand with me shoulder to shoulder."

"I therefore, offer myself in the democratic primary because, if I am selected to lead the fight, more loyal men from every party and every condition of life and political affiliation can unite upon me against the common enemy than can unite on any other man. With all the forces that will unite on me I will be a sure victor."

"If I am not nominated that victory is not sure because the democratic party of itself is not strong enough and if victory does come it surely will not be of the overwhelming nature that it should be."

"I have no machine and no money. My volunteer work in Washington has left me without funds. I call for volunteers to help me. I shall begin at once to go from shop to shop and from farm to farm awakening our people and gathering them into a mighty force against the common enemy."

"I want speakers, money and fighters! In the spirit of sacrifice without which no nation can survive. I ask you to volunteer for victory! Send me your name at once."

JUSTICE OFFICE TO CONTINUE

Transfer of R. B. Spencer Will Change Arrangement at Madison

The Madison office of the department of justice is not to be discontinued because of recent orders transferring Special Agent R. B. Spencer to Milwaukee. It was announced this morning that Mr. Spencer will have charge of the Milwaukee office and will maintain the Madison office as a branch, devoting a day or two a week to the transacting of business here.

In Milwaukee, Mr. Spencer takes the place of Ralph Izard, who has been transferred to the department of labor with headquarters at Washington.

David Barry, who has been associated with Mr. Spencer in the work of the Madison office goes to Chicago.

During the eight months Mr. Spencer has been stationed at Madison he has handled thousands of complaints. He also has acquired many personal friends in the city who, while regretting his transfer because of the personal loss, unite in wishing him success in his new and larger field.

EXTRA CARS FOR GISHOLT WORKERS

It was announced today that the Madison City Railways company will place two extra cars in service at the Gisholt Machine Co. shops, the result of a petition by the workers there for better car service.

AN EARLY EASTER

Only twice during the last ten years—viz., in 1910 and 1913—has Easter been celebrated during the month of March. This year's date, March 31, corresponds precisely with that of Easter Day, 1907, and as most of our readers know, Easter's earliest date is March 22 and its latest date April 25.

Tennessee Beauty Is On Her Way To Heart Of War Zone In France.

Miss Marie Sims.
Congressman Thetus W. Sims of Tennessee believes so strongly in woman's rights as a reward for woman's service and ability that he left a hospital to appear in the house recently to vote aye for the suffrage amendment. Now we know where he gets his intimate knowledge of women.

Here is his daughter Marie, one of the beauties of the south and a leader in Washington's younger set, who is on her way to France to be a file clerk for the Red Cross. Her duties will carry her to the very thickest of the fighting on the western front.

ASSEMBLY IS CALL FOR 10,000 AGAIN UNDER MECHANICS FOR CALL OF HOUSE SIGNAL CORPS

Vote on Anti-La Follette Resolution Will Probably be Made Tonight

The Assembly under a gentlemen's agreement this afternoon decided to meet at 7:30 tonight. It is believed enough members will be present to take up the resolution.

Hope of a vote on the Wilcox anti-La Follette resolution before this evening at the earliest and possibly not until tomorrow became evident in the assembly early today when a roll call disclosed the lack of a quorum and the house was forced to enter into a gentlemen's agreement until 2 o'clock.

While noon trains brought in many of the absent members there were indications that there were still too few to muster the required 51 votes to raise the call. Apparently both sides were evenly divided at the commencement of today's session and there was no move on either side to bring the issue to the floor. West Assemblyman Mahon led the fight for the resolution and Peterson, Assemblyman Charles D. Ross, minority floor leader, was absent today, but went word that he would be here for the afternoon session.

Assemblyman D. J. Vincent, Kenosha, put the house under a call as soon as it convened this morning. The calling of the roll showed only 42 members present, but late morning and noon trains are expected to swell the attendance. From present indications no progress will be made with the anti-La Follette resolutions today.

At the opening of the session, Speaker Whitte read a telegram from Assemblyman Benjamin Mahon, Milwaukee, saying that he was seriously ill and asking for an indefinite leave of absence. It was granted. Mahon led the fight in favor of the passage of the Wilcox anti-La Follette amendment.

The roll call was forced by Assemblyman William T. Bryon, Madison, who insisted that the roll be called. When the calling of the roll showed only 42 members present, the progressive simply awaited the action of the anti-La Follette leaders. Finally after a minute or so of silence, Assemblyman Vincent moved the call and the doors were closed.

PAPER MAKERS' FIGURES ASKED

Trade Commission Seeks Pro- duction Costs to Fix Prices

By the Associated Press.]
WASHINGTON, March 4.—Paper manufacturers were called today by the federal trade commission to give information on investment and production costs which the commission will take into consideration in fixing a price for news print, effective April 1. The hearing today was a continuation of previous hearings at which the manufacturers asked more time to prepare their figures. The commission, in the meantime, has obtained similar information from experts called as independent witnesses and will introduce another expert, Frederick C. Clark, of the bureau of standards, to testify on paper costs.

MORE BRITISH THAN GERMAN BOMBS DROP

By the Associated Press.]
LONDON, Mar. 4.—In the month of January, says an official statement issued today by the war office, the Germans dropped 1,482 bombs in the area occupied by British troops in France. In the same period, British aviators dropped 7,865 bombs in enemy areas.

AMERICANS IN GERMAN HANDS PART OF PATROL

Enemy Has Taken None of U. S. Soldiers From the Trenches

THIRTEEN ARE MISSING Comprised Small Outpost in Chemin des Dames Sector

[By the Associated Press.]
WITH THE AMERICAN ARMY IN FRANCE, Saturday, Mar. 2.—The Americans the Germans claimed to have captured on the Chemin des Dames probably were the larger part of a patrol of thirteen men which went out when the raid began and has not been heard of since. The enemy obtained no prisoners from the American trenches.

The German war office last Friday said that near Chavignon, on the western sector of the Aisne front, German troops had forced their way into the Franco-American trenches and captured ten Americans and a few French prisoners. The French official statement of the same day in reporting the attack which occurred Thursday night, said that two columns of the enemy had been thrown back with heavy losses. German prisoners were taken by the French.

Details of the German attack which failed completely to reach the trenches are now available. American artillerymen laid down a barrage fire as soon as the Germans started their attack. It is known that three companies of especially trained "shock troops" which had been practicing for this operation for two weeks, took part in the attack. Each company was preceded by a picked party of twenty pioneers.

Fighting Brisk
The fighting was brisk for about an hour but the accurate machine gun and rifle from the American front lines, coupled with the perfect American barrage which prevented reinforcements from coming up, forced the Germans to withdraw after sustaining heavy casualties and without having set foot in the American trenches.

Soon after the attack was over a young lieutenant commanding a platoon, members of which composed the patrolling party which had gone to find them but without result. He returned to his trench and asked for a voluntary detail. Every man in the platoon volunteered, but the lieutenant picked out a small party and set out again. They were forced to return however, when the German fire became increasingly heavy.

PORKLESS DAY IS SUSPENDED

Hoover Lifts Ban; Also Cuts Out Meatless Meals

WASHINGTON, March 4.—Temporary suspension of the meatless meal and of the special restrictions against the use of pork on Saturdays was announced by the food administration Sunday night as a readjustment of its meat conservation program. Increased meat production and the necessity for still greater saving in wheat, it was declared, make the change advisable.

The suspension is made effective for an indefinite period, probably for three months or longer.

The administration now asks the public for the time being to deny itself only beef and pork one day a week, Tuesday.

There is no intention to add now the restrictions already in force against the use of flour.

WINNERS AT POKER WILL HAVE TO PAY INCOME TAX, SAYS REVENUE BUREAU

[By the Associated Press.]
WASHINGTON, Mar. 4.—Poker profiteers were hit today by the internal revenue bureau's informal ruling that earnings from the game were subject to the income tax but losses could not be deducted from income in figuring the tax. Thus there is a tax for the winner and no relief for the loser. The ruling was given in answer to the following letter of inquiry:

"Kindly tell me whether poker losses are deductible from net income in figuring income taxes. I have lost large sums in the past year and the question with me is vital. For the information of a friend who has had good poker profits, please tell me whether there are to be included in income."

ENEMY READY TO MOVE ON WEST FRONT

Weekly Review by War Department Indicates Activity

MAKE THREE ATTACKS Germans Unsuccessful in At- tempt to Break American Lines

[By the Associated Press.]
WASHINGTON, Mar. 4.—Continued preparatory movements on the part of the Germans along the western front are noted today by the war department in its review of the military situation for the week ending Mar. 2. "The momentum of battle is increasing," the statement declares, citing three attempts by the enemy to reach the lines held by American troops, as an example of what is taking place "on a larger scale along the entire western front."

The definite announcement is made that American forces have taken over a sector northwest of Toul and that a number of detached units are in action in the Champagne.

Operations in the eastern theatre are expected to affect events in France through a modification of German plans, the review intimates. Six Teuton columns are operating in Russia and to only one of these—the column moving towards Vitebsk—is any opposition noted.

Turks Advance in Caucasus
Turkish forces advancing in the Caucasus are meeting with little resistance and are menacing Armenian residents of the districts retaken from the Russians.

The review says:
"The third month of relative quiescence on the western front has come to a close. During this period both belligerent groups have been massing their forces."

"There is evidence that the enemy continues to bring up fresh units. Owing to transportation difficulties this has been a slow and laborious process."

"The allied war council is now in continuous session, assuring complete unity and flexibility of control."

"The British have extended their front."

"We have but to note the occurrences of the last week in our own sector in Lorraine in order to gain an idea of what is taking place. Patrols have been very active. Early in the week the enemy made two attempts to reach our lines but was driven off by machine gun fire. On March 1 the enemy developed a sharply driven attack. After a short struggle the hostile detachment was repulsed."

"The Germans are now using gas along our front. Our men are becoming accustomed to this weapon. Our gas masks are efficiently protective. Our artillery was very busy shelling enemy dispositions and inflicted considerable damage on gun and mortar emplacements."

Russians Destroy Bridge [By the Associated Press.]

WASHINGTON, March 4.—The Russians have begun destroying bridges on the trans-Siberian railroad between Lake Balkal and the Chinese frontier, John F. Stevens, chairman of the American railway mission, reported this today to the state department. This may prevent reaching Vladivostok.

While without details, officials here believe the Russians are destroying the bridges to prevent an expected advance of Japanese troops. A large number of other structures have been mined, Mr. Stevens also reported, as they could be readily destroyed.

Mr. Stevens, who sent his dispatches from Yokohama and, therefore, undoubtedly from Japanese intelligence sources, said it was reported the bridges already destroyed were near Chita, east of Lake Balkal.

LIMIT PATENT RIGHTS WASHINGTON, March 4.—Decreasing the rights of a patentee under the patent laws to control the resale price of an article, were rendered today by the supreme court. Daily Weather Story

The highest temperature was 35 at 4 p. m. Lowest 30 at 11 p. m. Precipitation, .02. The sun sets at 5:51 p. m.

The area of high barometer and fair weather that prevailed throughout the interior of the country last week has now reached the Atlantic coast. It is followed in the northwest by an area of low barometer. This is causing rain in the central valley and snow in the northern Rocky mountain region. Warm southerly winds prevail in front of and to the south of the low, northerly winds and much colder weather to the north of it. When the center passes here, about Tuesday night, colder water will ensue.

Negotiations with the allies are on to determine what course Japan is to pursue and whether or not her army is to be augmented by American troops.

Capital Times Families Spend More Than \$10,000 a Day for Food

To fill the market basket of the average American working man's family in 1918 costs about \$8.88 more than in 1913. The total for food in the average working man's home is about \$610.65. Think of the yearly food bill for a family of five thousand members. Think of five thousand families that consume on an average of:

\$1,500 WORTH OF MEAT A DAY.
1600 POUNDS OF BUTTER A DAY
1700 DOZENS OF EGGS A DAY.
500 FOULS (POULTRY) A DAY.
320 POUNDS OF CHEESE A DAY.

340 BUSHELS OF POTATOES A DAY.
\$2,500 WORTH OF CEREALS A DAY.
(including flour, rice, barley, etc.)
\$200 WORTH OF VEGETABLES A DAY.
\$340 WORTH OF FRUITS A DAY.

As a grocer or meat dealer how much of this food business are you doing? How many of these 5,000 families are you serving? How much additional business could you do without adding to your present running expenses?

5,000 people buy "The Capital Times" every day and 25,000 people read it. "The Capital Times" is the GREATEST SELLING FORCE

among the working men in this locality. It will deliver your messages to the greatest number of working men who are consumers, buyers, customers.

The opportunity to increase sales and build up permanent and profitable business among "Capital Times" families is here for the merchant ready to grasp it.

Remember TIME is the most valuable asset you possess. The time to think about developing new customers, increasing sales and building good will in this community is NOW.

"The Capital Times" is catering to the masses—and there never was a time when laboring men were earning as good wages as NOW and have the money to buy what they want—and pay for it.

PAID NEWSPAPERS

ONE of the greatest dangers to future world peace is the newspaper subsidized by the profiteers and the military clique.

One of the reasons for the present world conflict was the presence in continental Europe of newspapers financed by munitions makers and the big military establishments. The Krupps not only financed newspapers in Germany but in France, Russia and other European countries. These newspapers were used in the great game in which nations were used as pawns and the peoples plunged into the maelstrom of war. The newspapers steered public sentiment in those countries along the lines wanted by the military interests. They were used to arouse the feelings of one people in one section and to create national suspicion among people in another section.

America is facing a danger from the same source. The belligerent countries at war today have common ground which justifies getting around a table and entering into negotiations. If that is the case what is holding things back? The jingo newspapers. Each new statement of terms on the part of diplomats of both sides is the occasion for big headlines in the jingo newspapers shouting "Insincerity," "Duplicitous" and other terms.

Why all this? Because these newspapers are serving their masters. Peace is not desired by the hands that feed them.

Much has been said about the use of pro-German money in this country in influencing public sentiment. That this has been done is true and our government has taken stern and efficient methods to offset this insidious propaganda. It should be dealt with an iron hand and anyone accepting money of that kind should feel the stern hand of the law.

But the government should go a step further. It should be equally culpable for profiteers and munitions makers to be allowed to spend millions to subsidize jingo newspapers that will be President Wilson's greatest handicap in arriving at an honorable peace. We will make this prediction,—that as soon as the president feels that he has arrived at a point where he can honorably entertain proposals from the belligerent countries and is willing to go into a peace council that there will be a wail arise from the jingo newspapers over the country that will bring more embarrassment to him than any other consideration.

Who engineered the campaign against Secretary Baker? The jingo newspapers. Why? Because Baker is opposed to universal military service. We are being told that this is a war to end all war. And yet in the midst of this war the profiteers and the military clique are endeavoring to fasten a huge military establishment on this country.

The American people are coming more and more to have but little confidence in the rank and file of newspapers. They feel that the newspapers do not represent them but represent their masters.

WAR SUMMARY

(By the Associated Press)

Russia's delegates at Brest-Litovsk have halted the German invasion of Great Russia by agreeing to the peace terms offered Feb. 21. Peace was made, they report to the Bolshevik government, because every day of delay meant more demands by the Germans. Added provisions require the Russians not only to retire from Turkey's Asiatic provinces, but also from territory in the regions of Kars, Batoum and Karabagh, taken from the Turks during past wars.

Berlin also announces the signing of peace terms and the cessation of operations. When the German forward movement halted the invaders were at Narva, 100 miles west of Petrograd, and approaching Luga, 88 miles south-west. The greater part of the Ukraine also has been cleared of the Bolsheviks. Much war material and more than 63,000 prisoners have been captured by the Germans in the Russian campaign.

Germany apparently is determined to give the Bolsheviks a narrow strip along the Gulf of Finland and at the request of the Finnish government is to undertake the expulsion of the Finnish revolutionists and Bolshevik Red Guards from southern Finland. With Estonia under German control and Finland freed from Bolshevik sway, the Bolsheviks will have less than 200 miles of coast line along the Finnish gulf. German troops already have landed on the Aland islands at the entrance to the Gulf of Bothnia and will make the islands the base of their operations in support of the Finnish government. Germany has assured Sweden that she has no territorial interest in the Aland islands.

On the western front the Germans are becoming more active. Their raiding operations have increased in scope and are approaching the size of planned attacks. The attacks on the American sector, against the French in Champagne and elsewhere, and against the British lines were in greater strength last week than has been usual heretofore. The enemy artillery fire also is increasing on all the fronts. Except in Flanders the weather has been more favorable to military operations and the heralded German blow or blows may be made soon.

American officers and privates who distinguished themselves in the repulse of the German attack northwest of Toul last week have been decorated by the French government, war crosses being given the men in the presence of Premier Clemenceau. While visiting the American sector Saturday the French premier went into the front lines trenches, inspected the hospitals, talked with officers and men, and returned to Paris satisfied that the Americans were able to hold their own against the common enemy.

Dean Horace W. Hoskins of the New York University State Veterinary College, has advised frugal housewives and people who are banded together in an effort to obtain real food to eat

horsemeat.

It is cheaper and more wholesome than beef, and it tastes so like beef that the diner can't tell the difference.

According to Dean Hoskins, New York city alone is now eating 10,000 pounds of horsemeat per week. There are 2,000,000 horses in the west which are too small for army use. "Eat 'em," advises the professor.

An eminent French food conservator, a woman, by the way, has sent the following bit of advice to American householders:

"Keep a rabbit as a means of food defense during the war."

Come il faut, madame. A chef-d'œuvre, certainement. A coup d'état.

Then we shall not be hors de combat. We shall be rabbit de combat. A superb ruse de guerre.

The advice, of course, is excellent, and Americans will doubtless hasten to take advantage of it. The question will soon be asked: "Have you a little rabbit in your home?"

There are slight drawbacks. Ah! but there are always those. One of the drawbacks is that it is very difficult to keep one rabbit. You may start out with one, but about the time you get used to that one you will have several more. Rabbits are rabbits, just as pigs are pigs, if you gather what we mean.

BANDITS ARE BOLD

MENASA, March 4.—Police here are working on one of the most daring holdups ever staged in this city. Two men unmasked entered the store of Peter Kmentur and at the point of revolvers forced the proprietor to turn over the contents of the cash register. They overtook a roll of bills which Mr. Kmentur had on his person. After looting the cash register the men disappeared. They were strangers but the authorities are said to be in possession of several clues.

Peanut Cookies—Two tablespoons shortening, two teaspoons baking powder, one-quarter cup sugar, one-quarter teaspoon salt, one egg, two tablespoons milk, one-half cup flour, one-half cup chopped peanuts, one-half tablespoon lemon juice.

Mix shortening, sugar and beaten egg; then sift in flour, baking powder and salt; add milk, nuts and lemon juice. Drop from teaspoon on ungreased pan, one inch apart. Place half peanut on each and bake in moderate oven ten to twelve minutes.

Oatmeal Cookies—One cup Oatmeal (or flake), one cup flour, one-quarter cup butter and lard or substitute, two-thirds cup sugar, one egg, cup chopped raisins, one-half cup sweet milk, one-half teaspoon soda and vanilla.

Stir all together and drop on tins, one teaspoonful in a place. A very little salt may be added.

Cheap Molasses Cookies—Place can of Orleans molasses in oven until warm enough to flow. Take one cup of this warm molasses, one cup sugar, one small cup shortening, one cup water or sweet milk, three heaping teaspoons baking powder. Stiffen with half graham flour and half white flour (winter wheat). Makes four dozen very delicious cookies at small cost.

Raisins Cookies—One cup sugar, one cup sweet milk, one cup lard or substitute, two teaspoons baking powder, one-half teaspoon soda, one teaspoon

salt, one egg, a few raisins; flour with nutmeg.

Put all ingredients in a bowl and stir together before mixing. Put a raisin on each cookie before baking.

Cooky Recipe—One quart pastry flour, three teaspoons baking powder sifted with flour, three well-beaten eggs, one-half cup each lard and butter or substitute, one pint sugar, three tablespoons thin sweet cream; any kind of flavoring.

Mix shortening with flour, then add rest of ingredients. Mix fairly well, even if you have to add a little more flour; cut out and insert a raisin in the center; sprinkle a little granulated sugar on top; add a little salt. Bake in moderate oven.

THE TABLE

Chocolate Cake—One cup granulated sugar, two tablespoons lard or margarine, one-half cup cocoa, two cups sour milk, one teaspoon vanilla, three cups flour. Sift flour, sugar and cocoa together several times. Add melted lard and molasses and vanilla. Beat two teaspoons soda into milk and beat all well. Makes two large layers. Bake one-half hour.

War-Time Chicken Stew—Cut up and wash the chicken carefully. Place in one-quart of boiling salt water, bring about one teaspoon salt. Reduce heat and let simmer for an hour or more. Then add three carrots, three white turnips and six potatoes, cut in eighths lengthwise. Cook until all the vegetables are tender. Thicken the stock with three-quarter cup of flour moistened to a paste with a little cold water. Cook until thick. Add cups scalded milk and season to taste with salt and pepper.

Chili Con Carne (meatless)—To one quart tomatoes add one can red kidney beans, three large potatoes cut in small pieces, two medium-sized onions, one-half teaspoon chili powder, salt and pepper to taste. Let simmer one hour. Stir often to keep from burning. Serve with plain boiled rice.

Heart of Home Problems

by MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: Our family is large and father's income is limited. I feel that I must find some way to help on my college fund. I am a senior at high school and am taking the English course. I love to read books, but still better I love to read stories.

I would be perfectly happy if I could organize a "Tell Me a Story" club for the children of this town. There could be season tickets for the entire course or a small sum could be charged for one lesson. Courses could be offered on "King Arthur and His Knights," "Roman Tales," "Robin Hood," and all the other stories that children ought to know.

When I see so many mothers dragging their children around town I think of this plan. I have only lived here three months. No one knows me and I know only my teachers and a few classmates.

(1) Is there any chance for me in this line? If so, how shall I go about it?

(2) Do you think I could do it for the public library?

(1) I think there is a splendid chance for you to do this. Get the names of first grade children at the grammar schools and then call on their mothers and tell them your plan. You could have one or two story hours an afternoon and charge fifteen cents for each child. You will make more money if you do not overcharge. I would probably be better and more

convenient for the mothers if you took about ten children living near each other and taught them at the home of one of the children. You could probably get some mother to let you use her home if you did not charge for her child. In this way you could have several classes in different localities.

(2) The public library might be interested in your scheme. It would be worth while to talk the matter over with the librarian.

Dear Mrs. Thompson: I am twenty years old. I am going with a fellow who got me a beautiful ring for my birthday. I accepted it just because I did not want to hurt his feelings, but I do not intend to keep it if he does not intend to marry me. Will I do right in giving him the ring back in case he stops going with me?

VIRGINIA.

You should not have taken the ring in the first place, but of course it was a different position and I can understand that his feelings might have been hurt had you refused it; nevertheless you should have done so. If he stops going with you by all means return the ring.

Dear Mrs. Thompson: I am in love with a fellow who is attached to another girl. I think he is just a little bit crazy about me, but the other girl comes first in his thoughts. Everytime I look at him I think how lovely it would be to belong to him and I feel that then I could be happy. I

cannot stand it to see him love the other girl more than he does me.

I often go to parties where they play pool and I feel confident that I could arouse his feelings so that I could make him kiss me. Would this be fair to the girl he loves? I am a pretty good friend of hers and I want her as well as myself to be happy.

IN LOVE.

You are indulging in a low form of love. Games like pool are not worthy of a girl who respects herself and looks upon love as a sacred thing. The boy belongs to the other girl now, and you have no right to trifle with him. Try to think how you would feel if she stepped in and aroused the emotions of a man who loved you to such an extent that he would forget himself at the time and kiss her. Your thoughts are not pure and clean.

ATTORNEY GENERAL SMITH WEAKER

[By the Associated Press.]
ST. PAUL, Minn., Mar. 4.—Attorney General Lyndon A. Smith, who suffered paralysis of his right side a week ago, is believed to have but a slight chance for recovery, according to a bulletin announced by attending physicians early today. Although the patient has not suffered a second paralytic attack, his strength is waning and his relatives have been called.

DEPENDENTS' PAY HAS BEEN MAILED

[By the Associated Press.]
WASHINGTON, Mar. 4.—The first of the February checks for pay allowances and government allowances to dependents of soldiers and sailors have just been placed in the mails and probably two weeks more will be required to complete the preparation and distribution of the remittances, it is announced by the war risk insurance bureau.

Pan Dandys Roll 2,792 But Are Beaten In Sunday Match By All-Star Team of Ladies

Novelty Five Win Big Victory; Mary McKee Rolls 195

They stopped the Hammer on the lane, but it will take more than the five French army to beat the Novelty Five, composed of Madison's star bowlers.

Bowling in great form, or rather test style, and led by Miss Nan Adams who rolled a score of 195 for the five games, the Novelty Five defeated the Pan Dandys, Madison's team, at the A. B. C. in a fast match.

The Capital alleys Sunday afternoon, the total score of the ladies' team was 805, after the agreed handicap, based on the respective averages of the players, had been figured, while the Pan Dandys bowled 2,792.

This is the second victory of the ladies, and the ease with which they are winning their games, lines them up as the most formidable combination of bowlers in the city. The scores made were remarkable on both sides, the lowest score of the Pan Dandys on the game was 905. That was made in the first one, and the other two were 50 and 555. Tony Schwoegler bowled the highest for the three games, with a total of 350, and the highest score for a single game, 210.

A handicap of 202 pins, the difference between the averages of the teams, was allowed. Miss Mary McKee bowled 135 in her last game, and Mrs. Rasmussen went 135 in the same.

The Novelty Five is out to clean up all the men teams in the city. The first two victories over the Pan Dandys and Frank's Restaurant have caused the entire city to fear them. The detailed score of the match follows:

Novelty Five—
Mary Kraft.....122 152 131 411
Mary McKee.....142 145 155 442
Mrs. Rasmussen 123 121 139 470
Nan Adams.....155 176 142 473
Schwada.....101 142 95 332

(Handicap, 202) 375 973 757 2,792
Pan Dandys—
Schwoegler.....210 179 191 580
McCall.....178 183 155 516
Luckensmeyer.....155 135 202 592
Heilmann.....194 139 188 521
Wirka.....189 189 189 567

Totals.....905 950 935 2,792

The State Fair Five fell to the State House Ladies Five. That Five will fall to most anything in the bowling line.

Sam Barry said the spot is too much. It certainly is the way Sam bowls.

Grell was so excited that he used the ladies' small bowling ball in two frames, and was accused by his team mates of the mistake. Grell told them he did not know what he was doing.

The State House Ladies Five don't want much credit for defeating the State Fair Five. They said any ladies five would look like a good team bowling that bunch.

Tom Booth would like to have the Novelty Five accept his challenge to a match soon. He said if they don't accept soon he is afraid his new suit will lose its shape.

Fred Hayes, sport critic, was deciding some events Saturday night on the West side. Fred sure has got the dope with him. He came to town Sunday they say on a milk wagon.

If Joe Bled the hardware man says he don't seem to get good scores of George Easter says he is carrying too form. He looks as if he picked it up from pushing a lawn-mower.

George Easter says he is carrying too much weight this year for good bowling. From his scores he should be carrying the hod.

Dave Chantwell makes more fuss over delivering his bowling ball than Ed Walsh did over his spitball in the Am. League.

Bill Speth says he is going to play golf this summer to help his bowling next year. He says driving a golf ball gives you accuracy. From Bill, bowling he should be driving a back.

Bill Holtz has secured his last meal from Memphis so that makes his third one and all as in his raised?

And the Sun Prairie Special? Mr. McAdoo might be considerably busier with this city went west.

We had a few other things to inflict today, but we've just got time to make the first throw at the Assembly.

CHASING THE JINK IS DONOVAN'S JOB

The pitching jinx that has pursued the Detroit Tigers for some seasons may get the boot this year when old Bill Donovan, ex-Yankee manager, takes hold of the pitching staff. Donovan has been signed as coach for the Tigers and he will give most of his attention to the pitching staff.

INDIANS THINK OLD BOB WILL WIN SOME

The Cleveland Indians have bought old Bob Groom in the belief that the veteran still has quite a few hot games in him and that he will win more than a few games for the team. Groom is now thirty-three years old and has been in the American league ten years. His record with the Browns last season didn't show his real worth to the team, for though he had his slumps he pitched some great ball, including one of the season's few no-hit games.

HOLDOUT PLAYER IS NOT A HIT AT ALL THIS SEASON—NOT AT ALL

The ball player who holds out for more dough this season is soon going to find himself very "persona non grata" and all that sort of thing. At a time when the game is hardly able to stand on its pins the player with a demand for more money isn't likely to be loudly applauded.

Wisconsin Swimming Team To See First Competition Next Saturday Night In Milwaukee

Milwaukee Y. M. C. A. Will Hold Reception for Varsity Fish in Cream City Tank

The first Wisconsin swimming meet of the year will be held Saturday night when Coach Harry Hindman will take the Badger swimmers to Milwaukee for a meet with the Milwaukee Y. M. C. A. fish in the association tank in that city.

For several weeks before the opening of the second semester, and not until just recently, has the varsity coach been able to give his team any practice, as the tank in the Badger gym was closed, frozen and cracked, necessitating further delay and no practice.

As a last resort, with the Milwaukee meet coming on, Hindman sent his swimmers over to Lathrop hall where they practiced in the women's tank, and he will be able to send a very creditable team to the Cream City to compete with the best of Coach Millard's well trained swimmers, plungers, and fancy divers.

Twenty-five men have been entered from the university, but owing to the swimming conditions, it is not likely that such a large squad will actually be taken. The Milwaukee Y. M. C. A. swimmers have been setting some fine records, and are considered high class aquatic stars. The Badgers, however, although handicapped by loss of practice, should be able to make the meet close and perhaps return with a win.

MUCKS SEES GREAT FUTURE FOR SPORTS

Big Arlie Says War is Bringing Rejuvenation in Athletics

"The war is going to bring a rejuvenation in athletics," said Arlie Mucks, giant Badger weight man, and world's champion discus tosser at a luncheon Saturday noon in Minneapolis when the Wisconsin university alumni of that city gave the variety team a sendoff that went a long way towards helping win the Gopher game.

Mucks, who is still in the agricultural service, contrary to reports that he had enlisted, believes that a new and greater sport era is going to be ushered in as a result of the war. He explained that the adoption of athletics in the training camps was largely a result of thousands of men who had lost their interest in sports after college, or who had never been in any real competition. He believes that this reawakening in athletics will be felt over the whole country, and that after the war the entire nation will be active in sports.

Captain Chandler and Eber Simpson also spoke at the luncheon, and the Badger leader praised the Twin City slummers for the support that they gave the team. The alumni saw to it that the basketball five was treated royally, made them feel like there was a fire bunch of Cardinal men behind them before they went onto the floor, and formed a color band of rosters that kept up the Wisconsin spirit throughout all until Zeller earned the shot that was destined to win the game.

NEW ALLEYS MAY BE BUILT
Palix Brothers Have Purchased Property On Which Alleys May Be Installed

Madison is likely to have another set of bowling alleys. The Palix brothers, former owners of the Park alleys, have purchased the Schulz property on North Fairchild street, just off of State, and is likely that they will install some new alleys there.

SPORT SUMMARY
Club owners of the Western league at a meeting in Des Moines retained the transfer of the Lincoln franchise to Sioux City and the Denver franchise to Topeka. These cities with Des Moines, Wichita, St. Joseph, Omaha, Hutchinson, and Joplin will compose the league for 1918.

At a meeting of the Central Baseball league directors in Indianapolis it was decided to operate this season a six club circuit, provided Terra Haute can post the necessary \$2,000 forfeit and give assurance of finishing the season. Provided Terra Haute comes in the five other clubs in the league would be Evansville, Richmond, Ind. Springfield, Ohio, Bloomington and Peoria, Ill. Another meeting of the directors will be held March 15.

Purple and Maroons Will Be Played By Badger Five This Week In The University Gym

LAKE CITY FIVE BEATS ROUNDY'S

Absence of Roundy Himself Brings Defeat by 19 to 14

Lake City Basket Ball team showed up Roundy's team in a close fast game by a score of 27 to 25, Lake City taking the lead from start to finish.

The score at the end of the first half was 19 to 14, Lake City holding the advantage. The results of this game make it a horse a piece; therefore another game will be played between Roundy's U. W. and Lake City a week from next Tuesday to see who wears the ribbon. No doubt Roundy will be on deck to play the next game, every body missed the old master Friday night.

WISCONSIN SCORES THIRD IN MEET

Small Badger Track Team Makes Good Showing at Urbana

Coach Tom Jones' small Badger track team gave a good account of itself in the relay meet at Illinois Saturday, and hopes are raised that the Wisconsin team may prove a winner in future meets.

The Badgers took third in the one two, and four mile relays. Helanzen took third place in the hurdles. Chicago won the meet. The summaries:

Two mile relay—Won by Chicago; Michigan, second

LET'S NOT FORGET THAT UNCLE SAM IS PERFECTING DIRIGIBLES, TOO

Above—Army aviator using new camera from plane. Below—Tuning up

The photo at the bottom shows that Uncle Sam is not overlooking the
dirigible balloons even though they are not so widely discussed as the
planes. Students at the naval training station at Pensacola, Fla., are fast
learning the operation of the lighter-than-air machines. In the upper
picture an aviator is shown using the new camera which will be used to
photograph enemy trenches from above.

Eddie Plank, who was supposed last
summer to have been tucked away in
his baseball grave, has come to life
again. Fielder Jones announces that
Ed will be back with the Browns again
next summer and that he will take a
regular turn in the box. If all this is
so Ed is going to dish up a wonderful
record, as he has already been in the
big leagues seventeen seasons. Plank's
last game with the Browns last year
before he left was a 1-0 battle with
Walter Johnson, so it doesn't look like
he is all through yet. There was a
current idea last season that Plank
left the Browns because of a fuss with
Jones, but Fielder has denied that
rather convincingly since and explained
that Plank was worried about his arm,
believed it was getting ready to crack
and wanted to leave the game before it
happened. That Eddie has been re-
assured is apparent in his determina-
tion to come back next season and
everyone hopes that he will have a
flourishing year.

A couple of second story artists at-
tempted to invade the flat of Empire
Charles Rigler the other day. Charles
knocked one of them through the front
door, dislocating his shoulder, chased
the other one nine blocks, knocked him
out and took him to the calaboose.
Serves 'em right for not recognizing
the profession.

"Just read a New York paper," says
little Heinie Groh, "which stated that
I had a curious habit of falling down
when hard hits came my way, and of
making what looked like sensational
stops, just to electrify the crowd.
Well, I don't own arms as long as a
giraffe's neck, and I can't imitate a
spider in reaching for the hits that go
way over to my left side. I find that
I can make up for the difference in
reach by throwing myself at the ball
and coming up with it after the dive.
I get them and that's the main idea,
isn't it?"

MARKETS

CHICAGO GRAIN
CHICAGO, March 4.—Scarcity of good
grades of corn had a strengthening effect to-
day on the market for that cereal. So, too,
did assertions that with a normal spring no
corn would be moving from farms three
weeks hence, as farmers would then be busy
with field work. After opening unchanged
at 1.27 May, the market scored a slight ad-
vance.

Signs of export demand at St. Louis tend-
ed to strengthen the oats market. Buying
here, however, was only of a scattered char-
acter. Opening prices, which ranged from
the same as Saturday's finish to 1/4c higher,
with May 87 1/2 to 87 3/4, were followed by a
moderate upturn.

Lower quotations on hogs weakened pro-
visions. The chief setback was in pork.
Corn: No. 2 yellow nominal; No. 3 yellow
nominal; No. 4 yellow 1.49@1.50.
Oats: No. 3 white 91 1/2@92 1/2.

Lard 26.40.
Ribs 24.75.

CHICAGO LIVESTOCK
CHICAGO, March 4.—All but light grades
of hogs receded in price today on account of
arrivals being more numerous than had been
expected. Cattle offerings were also rela-
tively plentiful. There appeared to be no
excess of sheep.

Receipts 35,000; unsettled at Saturday's

NEW YORK STOCKS
NEW YORK, March 4.—Selling assumed
wider proportions in the stock exchange to-
day, the short interest pressing its early ad-
vantage on another break in Italian exchange
and indications of lighter money. Rails, in-
dustrials and equipments added to their in-
itial reversals and a few specialties were
weak on moderate offerings. Among the
exceptions were Baldwin Locomotive, Ameri-
can Car, Mexican Petroleum, and some of
the shares controlled by pool operators.
Liberty 8 1/2's sold at 97.94 to 97.95, first
4's at 97.12 to 97.28 and second 4's at 96.86
to 96.87.

A group of America's greatest athletes now in the U. S. army.

The stars of every field of athletics are now found in the American army, where they have been of greatest value both for their individual efforts as soldiers and for their influence in developing the arm's physical standards. The photograph shows fifteen men, many of whom days of peace were celebrated in various sports. Left to right, the individuals are: Capt. E. Ireland, champion featherweight wrestler of the world; "Lefty" Cook, director of athletics at Camp Lewis; Willie Ritchie, ex-lightweight fight champion, Eddie Meinholz, football, baseball, track and basketball star. Seated: Lieut. W. L. Stanton, football coach; Capt. L. A. Wattleit, baseball manager and owner of several western teams; Chaplain Father J. Glavin, former Dolphin University star, and Robert L. Stinson, world's champion hurdler.

Today's Poultry Lesson

KEEP A FEW HENS AND PLANT A GARDEN

By HENRY TRAFFORD, Editor Poultry Success

Established standard variety will be the least calculation seventy-two

People who live in town and have to buy everything they eat at present prices, which in most cases are more than double what they used to be before the war, are certainly confronted with a proposition not pleasant to contemplate and exceedingly hard to meet and some means of reducing the cost of living is eagerly sought for.

To our mind it is nothing short of a crime and disloyal to one's own country to allow opportunities to go unutilized. The Government has the right to the commodities of life and tend to reduce the cost of living and no man or woman possessing a fair degree of judgment and having a spirit of loyalty coursing through their veins and

are solicitous about the welfare of their own family will allow such opportunities to pass by unnoticed.

Those who are fortunate enough to own or rent a place to live in which has a back yard should utilize every available inch of space in growing something to eat. It is simply sur-

praising how many vegetables can be raised on a space fifty feet square if the ground is properly prepared, planted and taken care of. And, too, the back yard can be turned to profit by keeping a few hens thereon. The space available for this purpose should not be overcrowded. Overcrowding is a bad mistake, but no back yard is too small but what at least a half dozen hens can be profitably kept there. A half dozen hens of some well ex-

feet in size, which is large enough to keep a half dozen hens in, should feed it; not only a duty to their immediate family to do so, but a duty to the nation now in war and which through its officials at Washington is trying to urge every man, woman and child to conserve living commodities and thus help to win the war. Now is the time to act and do not forget that it costs no more to keep a good standard-bred stock than it does a poor and the results will be far more pleasing in the end.

APPEAL FOR
300 MECHANICS

A telegram has just been received at the local recruiting station from government headquarters calling for 300 mechanics. The telegram reads as

follows:

"Three hundred engine and other special automobile mechanics, young men, physically qualified, to be supplied by Wisconsin by March 8. Applicants will be sent to the aviation section signal corps, Kelly field, San Antonio, Texas."

ARRIVES IN EUROPE

NEENAH, March 4. Dr. C. P. Du

has arrived safely on "the other side"
according to a postcard received here.
He is the second Neenah physician to
see service overseas.

37 ENLIST IN NAVY
MILWAUKEE March 4. (AP)—

bade goodbye to fifty-seven young men who enlisted in the navy. Forty-four who joined as machinists in the aviation service and thirteen machinists, cooks and carpenters, left for two different eastern ports.
